### Interests

Cricket

Viedo editing

### watch movies,listening and discovering new music

I like to stay home so some of my hobbies are hobbies that you can do indoors.

I like to watch movies and I am a huge fan of drama movies, I also like listening and discovering new music because it is kinda boring to listen to the same songs all the time.

I like to do exercises, some people think exercising is like obligation, something that you have to do but when you do exercises regularly, you learn to love running jogging and lifting weights.

### Skills

Web development projects

2D and 3D modeling

### Languages

English

Telgu
